Sustainability Policy

Celsia **PERMANEC**

We understand sustainability as the change to Grow and Stay intimate.

We anticipate risks in an innovative manner, converting them for our clients and interest groups into profitable, respectful and responsible growth opportunities.

We evolved to face the challenges of the industry and create value, like this:

- Generating memorable experiences for our clients
- Delivering reliable and responsible energy
- Betting on the culture of good energy
- Innovating
- Executing projects beyond compliance
- Contributing to society and the conservation of ecosystems
- Being transparent
